Enforcement confidential

I wanted to pass along the info I have on this in advance of the meeting w Steve Brittle on Monday.

Steve believes that the facilities have an obligation to report ammonia emissions under the non-TRI part of EPCRA (emergency reporting). Per superfund, we do not believe they have a valid cause of action and the agency has said so in legal briefs. They have informed Steve of this but he has filed a citizen's suit notice notwithstanding.

Ex. 5 & 7
